**NOTE :: # of books read in a YEAR** cannot be compiled accurately or consistently because different Forms and years there are books that are read completely in one term, and other books are read over the full year (all 3 terms), while other books may be read slowly across a period of 2 - 3 years.

**SHADED AREA** denotes numbers which are adjusted for our family. PNEU/CM numbers are reflected in the bottom of the cell.

\* These figures are estimates.
